### Flotopia Event, Isla Vista, Santa Barbara County

- Santa Barbara County will be closing Isla Vista Beach on Saturday 04/02/2016 until Sunday 04/03/2016 due to the “Flotopia” event.
- Per the Santa Barbara County and Community Services Department:
  - Following the Floatopia event of 2009, the beaches at Isla Vista were left strewn with trash and debris.
  - This large scale event with thousands of participants had no provision for the health and well being of the public, including no facilities for human sanitation or refuse collection.
  - The County of Santa Barbara, therefore took action to close the Isla Vista beaches for a similar event in 2010, 2011, 2012, 2013, 2014 and 2015.
  - Due to the implementation of beach closures, the party has moved to the streets of Isla Vista causing the name of the event to change to Deltopia.
  - UCSB has scheduled activities throughout the next couple days for students in lieu of participating in the Deltopia event.
  - The closure is to protect public health and safety.

### Weather of Concern

#### **Northern California**

- An upper level system will bring the potential for mountain showers or thunderstorms Saturday afternoon and then more numerous showers late Sunday and Sunday night primarily north of Mendocino County.
- Building mixed swell 3 to 6 feet early Friday morning and continuing into the weekend for the entire coastline from the Sonoma coast to the Monterey coast.

#### **Southern California**

- For the Central coast, elevated surf to area beaches today through Sunday. Surf heights of 4 to 8 feet, with max sets to 10 feet are expected.
- From Oxnard down to San Diego, Surf heights of 3 to 6 feet are expected on most beaches through Sunday evening.

# **SITUATION SUMMARY**

## **Proclamation**

A resolution from El Dorado County has been received for tree mortality and bark beetle infestation. El Dorado County is requesting to be placed on the High Risk Counties list, federal funding for debris clearing activities, and CDAA. The resolution is dated 03/28/16.

## **Cal EOC Incident – 2014 Drought**

SOC / Inland REOC remains activated in support of 2014 Drought.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Medford Weather:**

A strong ridge remains over the Pacific Northwest today, and while it will gradually shift east, we will still squeeze another mostly sunny and warm day out of it. High temperatures today will be similar to yesterday over areas inland from the coast. The ridge breaks down, and its axis moves into the great basin tomorrow.

#### **Eureka Weather:**

Dry conditions will continue today with ridging over the west coast. However coastal cloudiness may be more persistent today. An upper level system will bring the potential for mountain showers or thunderstorms Saturday afternoon and then more numerous showers late Sunday and Sunday night primarily north of Mendocino County.

#### **Reno Weather:**

High pressure will provide dry conditions and above average temperatures this weekend. A weak low pressure system may bring a few showers and slightly cooler temperatures early next week, followed by dry and warmer conditions through next Thursday.

#### **San Francisco Weather:**

High pressure today through Sunday will bring dry and seasonable weather. A dry trough arrives Sunday night and Monday with a brief cooling trend. Behind the trough strong high pressure will build with offshore winds leading to much above normal temperatures Tuesday and Wednesday. Cooling arrives Thursday and Friday as the next upper low pushes in from the south.

#### **Sacramento Weather:**

Dry with above normal temperatures today. There will be a slight threat of light showers over the northern mountains Saturday and Sunday moving slightly farther south on Monday. Expect slightly cooler temperatures Saturday through Monday but remaining above normal. It looks dry Tuesday through Thursday with temperatures warming to well above normal. The next chance of showers over the mountains will be next Friday.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Hanford Weather:**

High pressure will continue over the region through early next week. An area of low pressure will approach the area from the south late next week.

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

High pressure aloft will bring a warming trend through the weekend. Patchy night through morning low clouds is expected across most coastal areas. A weak trough will pass to the north allowing for some modest cooling Monday. A more significant warm up with offshore flow is possible by the middle of next week. Expect significant cooling and a chance for precipitation possible late next week.

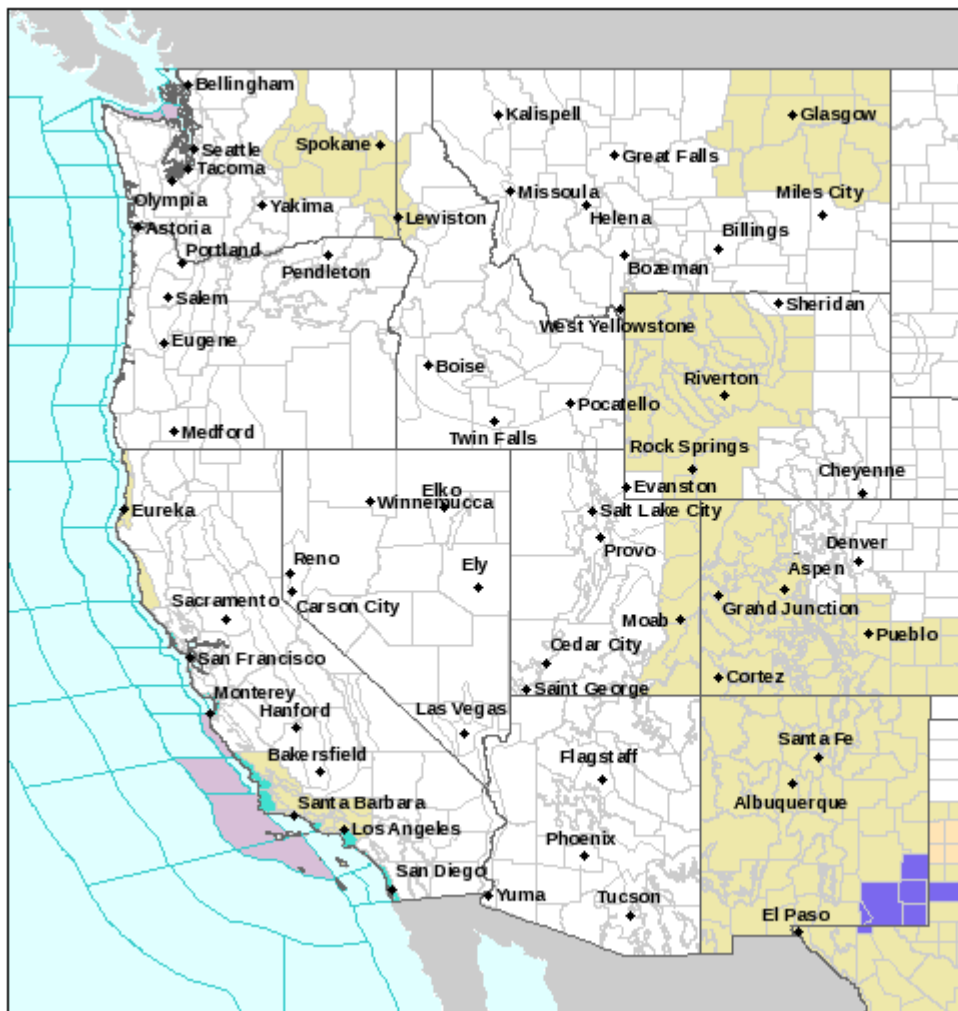

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

High pressure will bring fair and warmer weather this weekend. Coastal low clouds will appear nights and mornings within a shallow marine layer. Warmer weather is expected Tuesday and Wednesday as warm air from the south moves into the region and combines with offshore flow. That southerly air could also bring enough moisture for showers on Thursday.

#### **Southeast California Weather:**

Dry weather along with a continued warming trend can be expected through the weekend and into early next week. Breezy north winds today, especially along the lower Colorado River valley, will give way to light winds over the weekend. Breezy to locally windy south and southwest winds return Monday.

# **CAL OES 2014 DROUGHT**

## **Cal EOC Incident – 2014 Drought**

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

# CAL OES MISSIONS

## Closed Cal OES Missions

- **20016- LAW 22211, 03/31/16, 1740 hrs.**, Sacramento County Sheriff's Department (SCSD) is requesting resources to assist in locating a mentally challenged missing female. SCSD is requesting (2) Area and (2) Trailing Search Dog Teams. El Dorado County Sheriff's Department (ECSD) is responding with requested resources. **Update: 03/31/16, 1800 hrs.**, SCSD advised that M/P was located alive and well all resources cancelled. **Mission Closed.**
- **20016- LAW 22199, 03/31/16, 1530 hrs.**, The International Emergency Coordination Center (IERCC) is requesting San Diego County Sheriff's Department (SDSD) to respond to a Delorme device. The device is sounding on the Pacific Crest Trail at coordinates 32.63059 N by -116.5139 W. The R/O of the device advises that her husband is having a medical issue related to his diabetes. **Update: 03/31/16, 1610 hrs.**, SDSD advised that they located R/O and her husband both were airlifted to a local medical facility. **Mission Closed.**

# California Specialized Training Institute

## CSTI Scheduled Training

## CSTI on the web

### **AWR 328 All Hazards Preparedness for Animals in Disasters**

The course will introduce participants to the unique issues that must be considered and addressed when animals are involved in an emergency such as safe animal handling, animal evacuation, animal sheltering, humane euthanasia and carcass disposal, inclusion of animal management into existing ICS structures, federal support available during recovery, and unique considerations for conducting jurisdictional assessments and mapping evacuation routes.

**Date:** April 6, 2016    [Registration Link](#)

### **MGT 448 All Hazards Planning for Animal, Agricultural, and Food Related Disasters**

This course will provide the background information needed to lead a multi-agency team of emergency planners in the development of an ESF annex for food and/or animal related disasters to supplement their community's existing EOP.

**Date:** April 7, 2016    [Registration Link](#)

#### **Location:**

California Fire & Rescue Training Authority  
9320 Tech Center Drive  
Sacramento, CA 95826

The Rural Domestic Preparedness Consortium, led by The Center for Rural Development, is a DHS funded program providing training and resources to rural first responders. RDPC courses are offered both in-person and online, and are provided at no cost.
